Lesson Summary – Thy Word is truth. This is true of the historical records of the Bible as well as of its teachings. Whether the inspired writings deal with men as individuals or with nations. There is no glossing over the record. Even the sins of God's servants and His judgements upon them are revealed. There are also strong archaeological - proofs that the Bible records are true. Many critical scholars admit today that the Bible has to be treated with greater respect since the archaeological evidence has shown how accurate its records ar. – L. E. Froom, Our firm Foundation. Vol 1, pages 62,63.
All that prophecy has foretold as coming to pass until the present time, has been traced on the pages of history. And we may be assured that all which is yet to come will be fulfilled in its order. Education, page 178. Only that which is bound up with His purpose and expresses His character can endure His principles are the only steadfast things our world knows. Education, page 183.
